LANGUAGES & TECHNOLOGIES

- React, Typescript, Javascript, HTML, CSS
- C#, Java, SQL Server
- .NET, Node.js
- Git, GitLab, GitHub
- Splunk, ControlM
- Python, PowerShell
- MongoDB
- Jenkins

EDUCATION

Wellesley College – Wellesley, MA | May 2023

B.A. in Computer Science & Minor in Philosophy, Summa Cum Laude, GPA: 3.90

Massachusetts Institute of Technology – Cambridge, MA | Cross-registered Student | 2020

EXPERIENCE

McMaster-Carr | Systems Engineer II, Chicago, IL

June 2023 - Present

Industrial supplier and content publisher for print and web publications

- Design, develop, test, and maintain full-stack features in numerous codebases within agile sprint cycles, intentionally mitigating risk to 10+ internal and external applications.
- Communicate across technical and non-technical teams to define requirements, scope features, and deliver solutions that balance engineering cost and business impact.
- Designed and implemented a scalable, resilient process to sync millions of records daily from DB2 to SQL Server, enabling trustworthy access to critical data across the organization.
- Shepherded a team of 7 new engineers during a 3-month technical training program focused on full-stack development in React, .NET, and SQL Server; served as the Engineering Manager and Lead Engineer for their 3-week capstone project.
- Support legacy, developing, and third party systems across the organization through on-call rotations.

Grand Avenue Software | Software Developer, Saint Paul, MN

Feb 2021 - Aug 2022

Quality management system developer for the medical device industry

- Built proof of concept data visualizations in Power BI using DAX, PowerQuery, and consuming new endpoints to demonstrate the feasibility and value of this technology for all customers.
- Designed RESTful API endpoints for consumption in oData queries to support the proof of concept.
- Consistently designed, debugged, and delivered new features within an agile, test-driven development environment using .NET and Powershell.

SavingFace at MIT Media Lab | Project Manager, Cambridge, MA

May 2020 - Dec 2020

ML mobile app for detecting face-touching behavior at the beginning of COVID-19

- Contributed to ML model tuning and data analysis in initial iterations.
- Led a team of three in user experiments to evaluate the various versions of the software.
- Published a peer-reviewed article about the efficacy and approach to this technology.

eLumen Inc. | Software Intern, Minneapolis, MN

Summers 2018 & 2019, Jan 2020

Curriculum and assessment software promoting holistic evaluation in higher education

- Developed feature for a client-facing web application using Angular, NodeJS, HTML, and CSS while adhering to standard UX/UI guidelines.
- Worked within an agile structure, picking up backlog features as able within the sprint.
- Collaborated with a multi-national team to meet the needs of 100+ US colleges.

LEADERSHIP & EXTRACURRICULARS

Sommelier I – Certified Sommelier | Kendall College | 2024

2022 NCAA DIII National Champion - Varsity Crew | Wellesley College | 2019-2022

B2 DELF French Language Certification – Certified Fluency in French | 2019

Orientation Mentor – Student Leader, Volunteer | Wellesley College | 2020-2023
